

## Amplifier USB-80

USB-80 PA amplifier

Output power: 80W

Feature Description: 1.2-way microphone input, 1-way audio input, 1-

High and low bass adjustment, sound output with 2 partitions

Output, partition volume independent control.

2. Power consumption: 80W, output voltage: 100V / 4-16Ω, input

Voltage: 220v / 50-60hz.

3. Support MP3 / SD card, radio head, microphone, deck, TV audio, CD Player, VCD player and other signals as sound sources that are Wireless

Bluetooth function and remote control.

4. Dimensions (l \* w \* h): 278 \* 265 \* 82mm

Power	80 W

## Detailed

Model	USB-80
Type	PA Amplifier
Output Power	80W
Function Description	2-way microphone input, 1-way audio input, 1-way audio output, with high and low bass adjustment, 2 partition output, partition volume independent control
Output Voltage	100V/4-16Ω
Input Voltage	220V
Support	Support MP3/SD card, radio head, microphone, deck, TV audio, CD player, VCD player and other signals as audio sources, with wireless Bluetooth function and remote control
Dimensions	278*265*82MM
Frequency Range	60hz-16KHz±2dB
