

I-1052 Kontak İzleme Modülü

I-1052 Contact Tracking Module. Addressable input module

- Intelligent Discovery and Communication Protocols
- High quality and reliability
- SMD PCB Design
- Powered by a loop line
- Connection of 20 conventional detectors
- Insulated and Insulated
- 470 Ω resistor can be monitored
- Works in accordance with the fire scenario
- Monitoring of short-circuit and open line conditions
- Error and alarm LEDs showing the operating status
- Operating status LEDs
- Aesthetic appearance, easy installation
- ABS housing

Detailed

Model	I-1052
Operating Voltage	24VDC
Working Current	20mA
Type	A1
