

## C-1003 Conventional Heat Detector

### C-1003 Conventional Heat Detector

High quality and reliability  
SMD Circuit Board Design  
Detection of sudden temperature and set temperature  
Detecting Different Fire Types  
360 Visible Dual LEDs  
Aesthetic Appearance Easy Assembly  
Works with the Light Scattering Principle  
ABS Plastic housing  
Indicator Connection

## Detailed

Standard	EN54-29
IP protection	IP23
Operating voltage	24V DC loop voltage(+-%10)
Current	5mA Max, 0.8 mA Min
Operating temperature	-10°C to +50°C
RH	%95
Material and color	ABS, White
Cable	1 pair of poles
Diameter	100mm
Height	50mm
Weight	120 gr
