I-1000-1 Intelligent Adresli Yangın

I-1000-1 Intelligent Addressable Fire Alarm Switch. Intelligent Fire Alarm Panel

Standard expansion option for 1 circuit and up to 4 circuits
Advanced Intelligent Communication
32 Bit Microprocessor
Secure and Fast Communication
Fast Detection and Anti-False Alarm Memory
Programmable from Panel
127 device connections per circuit
240x128 Graphic LCD display
30 zones and 1 siren line
Network with all Alfamax Panels
Ability to store 1500 event records thanks to internal memory
Programmable with PC software
Optional panel printer
Repeater panel input
Effectiveness Test
Day and Night Mode

Detailed

Standard	EN54-29
Panel Supply	220 (+- 10%) VAC 50/60 Hz
Panel Current	0.600A, 2A Sigorta
Operating Temperature	0°C - 40°C (%95 Humidity)
IP Protection	IP30
Application Area	Indoor use

Programming	SenseAction Computer Program
Zone Capacity	up to 30 zones
Loop Information	Single loop, expandable up to 4
Battery	2 pieces 12V 21 Ah dry battery
Repeater Connection	Up to 2000m with 1.5mm 2 cable
Pc connection	with RS232 port
Panel Printer	Optional thermal printer
Dimensions	540x420x175 mm
