

Switch FF-2.5G42Q

Switch FF-2.5G42Q 4*2.5G+2*10GSFP

The FF-2.5G42Q switch is equipped with the latest high-speed Ethernet switching chips and designed with an ultra-high backplane bandwidth, endowing it with an extremely rapid data processing capacity and enhancing the smoothness of data transmission. It is furnished with 4 2.5G RJ45 ports and 2 10G SFP ports.

Port Number	4 Port
-------------	--------

Detailed

Model	FF-2.5G42Q
SFP Port	1G/2.5G/10G
Network Standards	IEEE 802.3□IEEE802.3ab□802.3bz
Network Medium	10/100BASE-TX: Unshielded twisted pair cable of Category 5 or above
Network Signal Distance	Transmission distance ≤ 100 meters
Backplane Bandwidth	60Gbps
Packet Forwarding Rate	44Mpps
Switching Mode	Store-and-forward
MAC Address	4K
Indicator Lights	Each port has 1 LINK/ACT indicator light, the whole device has a power indicator light and a status indicator light.
Working Environment	Operating temperature: -10°C - 55°C
Input Power	DC12V

Whole Device Power	6W
Weight	0.5kg
Dimensions	140mm*80mm*25mm(L*W*H)
