

Switch FF-2.5G81Q

Switch FF-2.5G81Q 8*2.5G+1*10GSFP

The FF-2.5G81Q switch adopts the latest high-speed Ethernet switching chips and features an ultra-high backplane bandwidth design. It has an extremely fast data processing ability and can improve the smoothness of data transmission. It comes with 8 2.5G RJ45 ports and 1 10G SFP port.

Port Number	8 Port
Port speed	100mbp/s

Detailed

Model	FF-2.5G81Q
SFP Port	1G/2.5G/10G
Network Standards	IEEE 802.3 IEEE802.3ab IEEE802.3bz
Network Medium	Unshielded twisted pair cable of Category 5 or above Network Signal Distance: Transmission distance ≤ 100 meters
Network Signal Distance	Transmission distance ≤ 100 meters
Backplane Bandwidth:	100Gbps
Packet Forwarding Rate	74Mpps
Switching Mode	Store-and-forward
MAC Address	4K
Indicator Lights	Each port has one LINK/ACT indicator light, and the whole device has a power indicator light and a status indicator light.

Working Environment	Operating temperature: -10°C - 55°C
Input Power	DC12V
Whole Device Power	9W
Weight	0.8kg
Dimensions	184mm*94mm*27mm(L*W*H)
