

H30-9 Electric Actuator

H30-9 Thermal Electric Actuator Controller 230V

- Application: water heating
- Feature: Normally-closed configuration, wax-filled element
- Function: on/off-controls, normally closed/open
- Reliable long time operation
- Noise-free operation
- No mounting tools required
- Position indicator on actuator
- Normal close/Normal Open

Detailed

Model	H30-9
Power	AC230V (DC 24V available)
Initial Current	50MA
Force	110N
Stroke	3mm
Valve interface	nut M30*1.5mm
Cable Length	100mm
Ambient temperature	-20°C-70°C
Dimension	62mm*30mm*39mm
