

HY09RF Underfloor Heating Control

HY09RF Underfloor Heating Thermostat Wireless work with HY521

- Function: Wireless control, receiver battery powered, Low power warning
- Programmable - 7 days, 6 different switching settings and temperature for each day.
- Frost protection function below 10 °C with a precision of 0.5 °C.
- Save the settings when replacing the battery.
- Possibility of programmed or manual mode.
- Large LCD display, sensitive to touch, showing the current day of the week, the currently active program, the time or set temperature and the current room temperature.
- Radio frequency (RF) connection (433 Mhz).
- In case of overheating, it automatically stops the heating (at 45 °C).
- Child lock program.
- Designed for wall mounting or use with 2 support legs (part of equipment)
- Power can be provided with 4 pencil batteries or a USB connection cable (cable included).

Detailed

Model	HY09RF
Power	Receiver: 230Vac 50/60HZ Thermostat: USB power supply/4*AAA Batteries
Type	Tuya smart thermostat
Display Accuracy	0.5°C
Programmable	5+2/6+1/ 7 days
Contact Capacity	5A/250V(WW);16A/250V(WE)
Limit temperature range	1~70°C

Range of temperature adjustment	5~35°C
Insulating condition	Normal environment
Probe sensor	NTC(10k)1%
Output	Switch relay
Installation	recessed type (in the wall)
Size(mm)	130*90*25mm
Material	Anti-flammable PC +ABS
