

Mikrafon KC-500C

KC-500C (Mikrafonlar)

The unit is powered by the system host. The input voltage is 18V DC, which is a safe range. The unit has a single button and indicator light, which can control the speaking status freely. When the phone is turned on, the red light ring emits light at the same time, which clearly indicates the position of the speaker. Using a capacitive microphone core, the microphone tube is designed to be wound around and has a replaceable windshield. The microphone rod is available in an extended version.

Frequency response: 100-16000Hz

Sensitivity: -40dB ± 2 dB

Pickup distance: 20~80cm
