

Switch CAM-P1006N

CAM-P1006N supports data and power transmission through CAT.5 cables at the same time. And 42 port support fast connecting at 10/100Mbps. It also supports long transmission distance at 250 meters both for power and data, therefore, it saves cost for the project that requiring long distance transmission through extender, fiber and coaxial cable etc. It reduces line losses effectively though 4-core cable supplying power at the same time. Cost effective CAM-P1006N provide a simple network for wireless AP. These devices away electrical outlets are very suitable for hanging on the wall or ceiling. PoE eliminates the hassle for these devices, specially the electrical outlets. Connect the AC power connection to make those difficult device more flexible, and the installation cost minimization.

Port Sayı	6 Port
Port sürəti	100mbp/s
PoE	PoE
PoE gücü	120 W
Tip	Managed

Ətraflı

Model	CAM-P1006N
Network chipset	Realtek
Specification	Desktop and Rack-Mount
POE	802.3af 802.3 on one port 30 watts
Transmission distance	250m
Switch Capacity	10/100Mbps
PoE Standard	IEEE802.3af and IEEE802.3at
