

Switch CAM-P1006N

CAM-P1006N supports data and power transmission through CAT.5 cables at the same time. And 42 ports support fast connecting at 10/100Mbps. It also supports long transmission distance at 250 meters both for power and data, therefore, it saves cost for the project that requires long distance transmission through extender, fiber and coaxial cable etc. It reduces line losses effectively though 4-core cable supplying power at the same time. Cost effective CAM-P1006N provides a simple network for wireless AP. These devices away from electrical outlets are very suitable for hanging on the wall or ceiling. PoE eliminates the hassle for these devices, especially the electrical outlets. Connect the AC power connection to make those difficult devices more flexible, and the installation cost minimization.

Port Number	6 Port
Port speed	100mbp/s
PoE	PoE
PoE power	120 W
Type	Managed

Detailed

Model	CAM-P1006N
Network chipset	Realtek
Specification	Desktop and Rack-Mount
POE	802.3af 802.3 on one port 30 watts
Transmission distance	250m
Switch Capacity	10/100Mbps
PoE Standard	IEEE802.3

	af and IEEE802.3at
