Switch CAM-P1010N

CAM-P1010N supports data and power transmission through CAT.5 cables at the same time. And 82 ports support fast connecting at 10/100Mbps. It also supports long transmission distance at 250 meters both for power and data, therefore, it saves cost for the project that requires long distance transmission through extender, fiber and coaxial cable etc. It reduces line losses effectively though 4-core cable supplying power at the same time. Cost effective CAM-P1010N provides a simple network for wireless AP. These devices away from electrical outlets are very suitable for hanging on the wall or ceiling. PoE eliminates the hassle for these devices, especially the electrical outlets. Connect the AC power connection to make those difficult devices more flexible, and the installation cost minimization.

Port Number	10 Port
Port speed	100mbp/s
PoE	PoE
PoE power	120 W
Type	Unmanaged

Detailed

Model	CAM-P1010N
Communication Mode	Full-Duplex
Switch Capacity	Gigabit:20Gbps 100Mb/s:2Gbps
Function	POE, VLAN Support
POE budget	250W
DIP Function Mode	VLAN/Switch
Power Supply	AC100-240V 50/60Hz

Network Chipset	Realtek
specifications	Desktop and Rack-Mount
Network Management	Unmanaged

Network Chipset	Realtek
specifications	Desktop and Rack-Mount
Network Management	Unmanaged
